

LAO SENG LEE YON

CORPORATE PROFILE 2026

Over 50 years of craftsmanship, trust, and progress.

“When you cannot find the right spare part, ask Hia Chai.”

THE FOUNDATION (1974)

Founded by Mr. Wanchai Kongpratinya. Built on the understanding that one critical part determines whether an excavator or a customer's business gets back to work.

THE EVOLUTION (TODAY)

A multi-function operation led by the next generation, retaining foundational craftsmanship while expanding nationwide parts and lubricant distribution.

INTEGRATED OPERATIONS

Connecting diagnosis, repair, and sourcing within one 5-rai operating site.

Technical Inventory

Spare-parts warehouse supporting heavy machinery, trucks, and industrial equipment.

Repair Workshop

Undercarriage, powertrain, and bucket repairs.

Machining & Fabrication

Metal turning, modification, and custom-built components.

Heavy Equipment & Technical Spares

- Undercarriage parts (track rollers, idlers, sprockets)
- Hydraulic seal kits, oil seals, and seal groups
- Bearings, belts, filters, and fasteners

Lubricants & Distribution

- Priority distribution for Bangchak Lubricants (automotive and industrial).
- Additional inventory holding for Shell and Pulzar brands.

Machining & Standard Repair

Focus: Excavators, tractors, and heavy machinery.

Capabilities: Turning, threading, metal-part repair, powertrain, and undercarriage servicing.

Advantage: Dimensional verification and fitment testing directly against technical specifications on-site.

Custom-Built Solutions

Focus: Application-specific fabrication based on real operating requirements.

Capabilities: Sand-pump components (impellers, wear plates), custom flanges for 6–10 inch PE pipes (sand-suction), and structural chassis modifications.

Central Base

Pa Mok District, Ang Thong

Strategic commercial
location.

Footprint

~5 Rai

Integrated retail,
warehouse, and
workshop.

Frontage

~100 Meters

High-visibility
commercial access.

Reach

Nationwide

Logistics partnerships
connecting sourcing,
technical support, and
delivery across Thailand.

Strategic Manufacturer Partnerships

We welcome long-term, transparent discussions with verifiable manufacturers of undercarriage parts, seals, bearings, filters, and hydraulic components.

1. Technical Evaluation

Exchange of catalogs, technical specifications, and part numbering validation.

2. Quality Assessment

Physical comparison against actual parts, sample testing, and fitment verification.

3. Pilot Sourcing

Execution of limited pilot orders to establish operational alignment and logistics.

4. Integrated Distribution

Scaling into long-term local stockholding, distribution, and after-sales cooperation.
